SUMMARY

Oriented professional with software development skills, interested in challenging frontend development roles backed with strong coding and programming skills. A team player with good communication and interpersonal skills.

PROJECTS

E-Commerce Website

This project involves the development of a dynamic and engaging e-commerce platform using the popular front-end library, React. The goal is to provide users with an intuitive shopping experience while also offering administrators the tools to manage products, orders, and customer interactions efficiently.

User Authentication and Registration

Users can create accounts, log in securely, and maintain personalized profiles. Password recovery mechanisms can also be implemented for enhanced user convenience.

Payment Page

A seamless checkout process allows users to review their order, enter shipping information, and choose a payment method. Integration with a secure payment gateway ensures a smooth and secure transaction process.

Rest API's Creation

This project involves the creation of a versatile API using Node.js, a popular runtime environment for executing JavaScript code on the server side. The objective is to develop a scalable and well-structured API that facilitates data retrieval, manipulation, and management for a wide range of applications.

TECHNICAL SKILLS

| React.js | Redux | JavaScript | Redux-Toolkit | Node.js | Express.js | HTML | CSS | Python | MongoDB | DSA |

PROFESSIONAL EXPERIENCE

01/2021 - Present

Kolkata, India

Systems Engineer
Tata Consultancy Services
- Developed fully responsive and user-friendly UI with different design patterns and development tools.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Participated in code reviews and provided constructive feedback for code optimization.
- Demonstrated problem-solving skills to address challenges in UI development and integration.

EDUCATION

2013 - 2014

Ranchi
